THE LUMBER AND MILL WORK departments of our business were established in 1859, and, by continually making better buying conditions, improving our facilities for handling everything cheaply, and surrounding ourselves with progressive men that grow up in our business and study the wants of our trade, we are in a position to serve our customers well and give them better values than a majority of dealers in larger cities, as our facilities are equally as good and our stocks are fully as large, yet our rentals and general expenses are much less, and the Consumer Gets the Benefit of these advantages.

Our prices are entirely based on the grades we sell, and, although we have a large demand for both the high and low grades, yet, our care in representing a grade to be just what it is and in Shipping the Grade We Sell has steadily increased our trade, and we believe that a comparison of our Prices and Grades will convince you that we have a well selected stock and that you can get the best values from us that can be secured.
